inequalities of opportunity affect a person's life expectancy and access to basic services and human rights through discrimination abuse and lack of access to justice high levels of inequality of opportunity discourage skill accumulation choke economic and social mobility and consequently depress economic growth inequality also entrenches uncertainty vulnerability and insecurity undermines trust in institutions and government increases social discord and tensions and triggers violence and conflicts this book presents wide ranging perspectives on economic inequality as measured by differences in incomes and wealth the contributors to the book explore how the economy is shaped in such a way as to generate differences in economic and social welfare between individuals regions and nations but the book is not

limited to economic perspectives inequality is a many faceted phenomenon that manifests itself in a number of ways thus the book begins with a section which highlights some of the standard features of inequality class gender and age the second section explores the manifestation of inequality in terms of differences in income and wealth the third section looks at some of the causes of inequality exploring the effects of discrimination and plunder by those in power the final section serves to drive home the point that geographic and institutional factors have an important place as well when it comes to shedding light on what equality is how it manifests itself and what its consequences are this book will be essential reading for anyone interested in the causes and consequences of economic inequality including those in economics sociology politics and geography

this book makes the bold attempt at proposing a new general theory of economic development the main premise is that economic institutions and policies must embody economic discrimination if there is to be any chance of real economic development by economic discrimination the author means treating differences differently by selecting and supporting economic entities and behaviour that contribute positively to the economy the book identifies markets government and corporations as the holy trinity of economic development that is the three most important institutions that must work together via economic discrimination to steer the economy towards real transformative progress the book also warns against the current trend of economic egalitarianism or not treating differences differently because it destroys economic incentives and results in an array of economic problems including growth stagnation

this text reviews the preventive diplomacy of the united nations suggesting that the security council is not well suited to the task what is needed it argues is a less political and more professional approach namely a larger and more autonomous role for the secretary general and the development of a greater specialist capacity within the secretariat the work gives appropriate weight to the importance of peace building both before and after conflict as an integral part of conflict prevention and the united nations role therein

this second edition of gary s becker s the economics of discrimination has been expanded to include three further discussions of the problem and an entirely new introduction which considers the contributions made by others in recent years and some of the more important problems remaining mr becker s work confronts the economic effects of discrimination in the market place because of race religion sex color social class personality or other non pecuniary considerations he demonstrates that discrimination in the market place by any group reduces their own real incomes as well as those of the minority the original edition of the economics of discrimination was warmly received by economists sociologists and psychologists alike for focusing the discerning eye of economic analysis upon a vital social problem discrimination in the market place this is an unusual book not only is it filled with ingenious theorizing but the implications of the theory are boldly confronted with facts the intimate relation of the theory and observation has resulted in a book of great vitality on a subject whose interest and importance are obvious m w reder american economic review the author s solution to the problem of measuring the motive behind actual discrimination is something of a tour de force sociologists in the field of race relations will wish to read this book karl schuessler american sociological review

the political economy of middle east peace looks at the political economy of the middle eastern peace process with a focus on the politics of trade contributors investigate the ways new commercial alliances develop as a result of economic agencies established via the arab israeli peace process and look at institutions which contribute to redirection of arab intra and inter regional trade such as the palestine monetary authority the middle east development bank and free trade zone agencies in aquaba and dubai

real examples real companies real business decisions covering the core economics principles and providing engaging relevant examples within just nineteen chapters hubbard essentials of economics is the perfect teaching and learning resource for a one semester unit the authors present economics as a dynamic relevant discipline for australasian students the key questions students of first year economics ask themselves are why am i here and will i ever use this hubbard essentials of economics answers these questions by demonstrating that real businesses use economics to make real decisions every day each chapter of the text opens with a case study featuring a real business or real business situation refers to the study throughout the chapter and concludes with an inside look a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision

this important research handbook explores the nexus between human rights poverty and inequality as a critical lens for understanding and addressing key challenges of the coming decades including the objectives set out in the sustainable development goals the research handbook starts from the premise that poverty is not solely an issue of minimum income and explores the profound ways that deprivation and distributive inequality of power and capability relate to economic social cultural civil and political rights

emphasizing the complex economic social and political factors that create poverty and make its eradication so difficult this book provides a broad overview of the dimensions of poverty and discrimination the various explanations for these social ills and the policy options for addressing them

this edited book presents some unexplored issues of economic inequality including case studies of various countries inequality is a chronic and divisive factor of society inequality exists as an integral attribute of human development communities nations and systems are not evolving at the same speed and rate and thus require different resources in different amounts however the distribution of winnings is also uneven due to the multidimensionality of influencing factors when we talk about inequality it is not just inequality of income or wealth it is first inequality in access to priorities and human needs to shelter to clean water air health care and also to appropriate vaccination systems and assistance security systems and safety guarantees for the future past financial crises and the current pandemic shock has revealed bugs in the system shaking it and changing our perception of the norms we may have no doubts that inequality is an unsolved problem but now we need to find out is it unbeatable there is still lack of knowledge around how inequality has been grounded throughout human civilization why society is stratified and classified economically politically socially and religiously and why the discrimination due to gender sexual orientation country of origin language differences immigration status caste race and ethnicity this book addresses these issues in a

holistic way as well as including case studies of various countries it tries to find out why inequality has been unbeatable and what would be the best policies to overcome this challenge

synopsis thoroughly classroom tested this introductory text provides a balanced up to date non mathematical examination of the economic theory underlying the analysis of inequality poverty mobility and income distribution in the united states

analyzes the problematic trends facing america s cities and older suburbs and challenges us to put america s urban crisis back on the national agenda

combining theoretical sophistication with a fundamental comprehension of the political institutions of the usa this study aims to demystify the workings of the united states supreme court and its place in democracy

monograph presenting an economic analysis of racial discrimination in the usa investigates some of the economic implications of discrimination particularly with regard to unemployment and poor employment opportunities for blacks low income due to inequitable income distribution etc references and statistical tables

if there was any question before there is no longer a question today inequality discrimination poverty and mobility are prominent national issues the notion of the american dream has been sold to generations of young americans as the idea that working hard and following your dreams will allow you to break through any barriers in your path and inevitably lead to success however recent findings on inequality discrimination poverty and mobility show that the american reality is very different the second edition of this introductory level text brings together the essential materials on what economists have to say about these findings and brings students up to date with current thinking it covers several ground shattering events such as the election of barack obama followed by donald trump the passage of the affordable care act and attempts to repeal it and the publication of thomas piketty s capital in the 21st century among many others with an emphasis on data theory and policy this book tackles these issues by exploring three key questions in each chapter what do the data tell us about what has been happening to the american economy what are the economic theories needed to understand what has been happening what are the policy ideas and controversies associated with these economic problems key controversies are highlighted in each chapter to drive classroom discussion and end of chapter questions develop student understanding this clearly written text is ideally suited to a wide variety of courses on contemporary economic conditions inequality and social economics in the united states

a former member of the civil rights division of the us department of justice established in 1957 explains the agency s role in combating institutionalized racism he discusses political realities national priorities the widening of the mandate weathering political shifts in washington conflicts between career civil servants and political appointees and other aspects he also analyzes the consequences of its litigation positions and considers whether the structure of enforcement should be changed annotation copyrighted by book news inc portland or
